

Exogene Geology and Quaternary Global Change Seminar FS2024

jeweils Donnerstag, 11:15, Muesmattstrasse 27, Raum M116, 1. Stock

| | | |
|------------|---------------------------------|--|
| 14.03.2024 | Hoda Moradi | Massive mobilization of toxic elements from an intact rock glacier in the Central Eastern Alps: insights on ice melt dynamics (PhD talk) |
| 21.03.2024 | Sebastian Schaller | Seismic and core-based glacial sequence stratigraphy of an overdeepened valley fill in northern Switzerland (PhD talk) |
| 28.03.2024 | Dr. Narendra Kumar Patel | Study of basement faults in the Ganga plain: A geomorphological and geophysical approach |
| 11.04.2024 | Lena Camenzind | Evolution of the Polygenetic Le Pont Cone, The Ferret Valley, Mont Blanc Massif (MSc talk) |
| 11.04.2024 | Eliane Deininger | Assessing the hazard of landslide induced tsunami events in Lake Walen (MSc talk) |
| 25.04.2024 | Gabriel Graf | Palaeoclimate-induced lake-level changes of Lake Sämtis (Eastern Switzerland) since the mid-Holocene. (MSc talk) |
| 02.05.2024 | Gaëtan Sauter | Examining sedimentological processes in sublacustrine deltas: from underflows to geomorphic changes (PhD talk) |
| 16.05.2024 | Dr. François Mettra | Deep sub-lacustrine Rhône delta (Lake Geneva) affected by localized, short Alpine storms |
| 23.05.2024 | Dr. Mathurin Wamba | Seismic Tomography of the Reunion mantle plume |
| 30.05.2024 | Janine Fankhauser | Timing of the Poschiavo Rock Avalanche (MSc talk) |
| 30.05.2024 | Linda Walker | Subaqueous morphology of Lake Lungern (MSc talk) |
